SKILLS

- JavaScript, React, CSS
- Firebase
- Python
- Agile Methodologies
- Optimizing Performance
- Project Management
- Microsoft 365

EXPERIENCE

OPERATIONS EXECUTIVE • CECOS COLLEGE LONDON JUL 2024 – CURRENT

As an Operation Executive, I expertly managed the verification and validation of user-submitted records, ensuring data accuracy and integrity. I spearheaded the development and implementation of innovative data management strategies, leveraging Microsoft 365 and other online platforms to optimize data handling and collaboration.

By uniting and motivating the team, I ensured tasks were completed to the highest standards and deadlines were consistently met. I also maintained strong communication with users and clients, addressing their needs and resolving issues promptly.

COMPUTER SCIENCE INSTRUCTOR • STUDENECT AUG 2023 – MAY 2024

As an online Instructor I delivered comprehensive and engaging lessons to students, covering a wide range of computer science topics, utilizing my expertise in front-end to provide hands on practical experience to students.

Furthermore, I have actively engaged in curriculum development, keeping up with the latest trends in technology.

FRONTEND DEVELOPER • K2X JUN 2023 – AUG 2023

As a full-time developer, I managed and contributed to the development of innovative web applications, overseeing the implementation of front-end functionality and optimizing website performance.

Collaborated with cross-functional teams to translate design mockups into responsive, user-friendly interfaces. Delivered projects within tight deadlines using Agile methodologies, ensuring efficient sprint planning and execution.

JUNIOR FRONTEND DEVELOPER • DRUPAK

APR 2021 – MAY 2023

As a part-time developer I gained valuable experience in web development as I worked closely with senior developers and actively contributed to development and implementation of responsive web designs.

My time at Drupak allowed me to develop a strong understanding of front-end development principles and best practices.

VOLUNTEER EXPERIENCE & LEADERSHIP

PRESIDENT • COMPUTER CELL SOCIETY (UET)

OCT 2022 – JUN 2024

As a president, taking decisions for various events and managing my team to undergo certain tasks was difficult, but it was a great experience to lead my team and society through all the milestones and achievements which include community service, workshop & seminars, technical events and co-curricular activities.

INTERNSHIP • PISA

JAN 2019 – MAR 2019

As an intern I learned how the data is being trafficked and what sources are used to track them. The 3-months internship gave valuable information on what cyber security is and how we can prevent attacks and secure our data.

CEO • LAUNCH-X SOCIETY (MIT)

SEP 2018 – JUN 2019

As a CEO, product Manager and Designer for an environment friendly product called SIP, was a great Entrepreneurship opportunity to add to my experience as my product was ranked top 80 in Asia.

A program of LaunchX Clubs, Massachusetts Institute of Technology (MIT)
